

# LPA Excil LumiPanel & LumiStrip

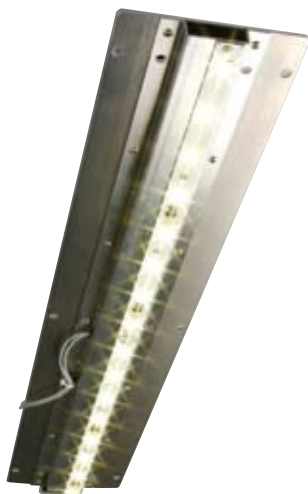

Long Life Reliability  
does not cost the earth

## LUMIPANEL

## LUMISTRIP

- High reliability LED technology offering 30% energy saving compared to equivalent length fluorescent
- LED life expectancy 100,000hrs to 70% of initial light output (17 yrs at 16 hours per day)
- Ultra-high reliability design - 300,000 hours MTBF
- Zero maintenance costs
- Significantly reduced weight compared to fluorescent luminaires
- Illumination levels exceed industry requirements
- Integrated power supply for direct connection to 72V/110V DC and 230V AC
- Can be dimmed or powered down eg for emergency lighting applications

Additional LumiPanel features:

- Only 20mm thick
- No internal Diffuser cleaning required

Additional LumiStrip feature:

- Can be retrofitted in existing Fluorescent Luminaire

Output Specification

Illuminance (Cool White) 454 Lux

Illuminance (Natural White) 324 Lux

Illuminance (Warm White) 284 Lux
