LPA GROUP PLC

(“LPA”, the “Company” or the “Group”)

New Distribution Agreement with Boeing Distribution

LPA Group plc, the innovation-led engineering company that designs and manufactures electronic and electro-mechanical components and systems, is pleased to announce a new distribution agreement with Boeing Distribution.

Boeing Distribution will leverage its established global network to distribute LPA Red Box Aviation’s product portfolio across the global general aviation market.

This agreement represents a significant milestone in LPA’s aviation market strategy and provides enhanced scalability for the Group’s general aviation business. It is a testament to the start of a strategic relationship between Boeing Distribution and LPA Group.

Building on the strategic decision to diversify from LPA's Rail market focus with the acquisition of Red Box Aviation in 2024, this agreement supports LPA’s market growth strategy by strengthening our sales channels in key market segments and achieving further global reach.

As a result of this agreement, an initial stocking order of approximately £0.5 million is expected in the second half of this calendar year.

Philo Daniel-Tran, Chief Executive Officer, commented: *“We are pleased to announce the signing of a new distribution agreement with Boeing Distribution which provide us with an excellent opportunity to further scale up our aviation business. Boeing Distribution’s developed network and established global operations will enhance our ability to serve the general aviation market. This agreement further validates the quality and market demand for LPA product solutions and supports our growth ambitions in one of our key market sectors.”*

About LPA

LPA Group plc (AIM: LPA) is an innovation-led engineering company that designs and manufactures electronic and electro-mechanical components and systems.

Focused on transport (rail and aviation), defence, infrastructure and industrial markets and supplying into hostile and challenging environments, LPA is known for engineering solutions to improve product reliability, reducing maintenance and life cycle costs.

The Group has four sites across the UK, selling to customers in the UK and overseas. Three of these are design and manufacturing sites: Saffron Walden, Essex - electro-mechanical systems for rail, aviation and industrial; Knapwell, Cambridge - power supplies for the rail market, Normanton, Yorkshire - LED lighting and electronic systems for rail and infrastructure. The fourth site is Newbury, Berkshire - value-added distribution of engineered components for rail, aerospace and defence.

With over 160 years of UK design and manufacture, and with origins in the first ever light installed in 'Electric Avenue', Brixton; innovation is core to LPA and to the products and services supplied to our customers worldwide.
